

a website where users can access labcenter licenses from a central location. Labcenter License Manager is a simple interface to use whenever you need to enter your unique code from the Labcenter License Unit. This utility makes it easy for people who have multiple computers or mobile devices to manage their licenses, ensuring they never have to lose track of them again. It also provides a convenient app for accessing your license codes on your desktop computer, making it perfect for the professional who's always on the go. Sign into the website with your credentials and click on Manage Licenses. Add your unique Labcenter License Unit code. Don't worry if you've misplaced this, you can enter all the details later using the Direct Registration Tool (DRT). You'll be prompted to complete the registration process for each of your computers, mobile devices or laptops. The next time you install Labcenter software onto one of these devices, just enter the license key that was generated for it and you'll be able to use it to create high-quality content without any hassle!

The Business Edition contains 22 additional filters that are especially designed for professional designers. The Creative Edition contains 72 additional filters that are especially designed for creative artists. The Labcenter License Manager can also be used to activate Cineware for Adobe After Effects, Cineware for Adobe Photoshop, Smooth Refine for Adobe After Effects, Animal Morphs (for Poser), GrowFX (for Poser), Maya Unlimited and Vue d'Esprit Pro.

download at - [http://www.labcenter.com/en/support\\_downloads.php](http://www.labcenter.com/en/support_downloads.php)
